SOFTWARE WITH FACIAL RECOGNITION TECHNOLOGY

AlertEnterprise Visitor Management Kiosk software with facial recognition technology delivers frictionless security to organizations that are looking to improve security and enhance the customer experience with a powerful first impression at check-in. The new facial recognition feature provides fast and accurate on-site identity verification and makes it easy for an organization to add facial image analysis to the check-in process for employees, visitors, contractors, and guests arriving on-site.

VISITOR IDENTITY MANAGEMENT SOFTWARE

Enterprise Guardian Visitor Identity Management (VIM) centralizes all aspects of the visitor identity lifecycle through a single interface. VIM automates visitor registration functions and applies a complete lifecycle process enterprise-wide. Fully integrated with AlertEnterprise Physical Identity and Access Management (PIAM) Guardian software, VIM actively enforces all company policies related to security, compliance and customer experience.

EMPOWER LOBBY AMBASSADORS AND ADMINISTRATORS

- Intuitive lobby dashboard
- Individual and group check-in | check-out
- Automatic compliance enforcement
- Simplified enterprise-class workflow management
- Customizable forms, attributes, notifications, badge templates
- No development effort or code changes needed

VIM FEATURES

- Fast, intuitive visitor registration and check-In
- Real-time vetting against government/local watchlists
- Automated policy-driven background checks
- Self-service pre-registration and workflows
- COVID-19 Health & Safety Access Governance module
- Approvals for visitor pre-enrollment
- Outlook plug-In
- Integration with ticket management systems for data center visitors
- Integration with industry-leading Physical Access Control Systems (PACS)
- Self-Service kiosks with face recognition, ID scanning, QR code, NDA and badge printing
- Enforced escort check-In
- Personally Identifiable Information (PII) encryption and deletion
- Automatic compliance enforcement with audits and reporting
- GDPR Compliant

NEW COVID-19 HEALTH & SAFETY ACCESS GOVERNANCE MODULE

As attention turns to restarting and recovering the global economy, AlertEnterprise is helping organizations put technology to work to defend their workforces from the COVID-19 contagion. The new Health & Safety Access Governance module helps you return to work with confidence, automating and proactively enforcing policies and plans for re-entry, workspace physical distancing and infection response.
