

Alert Enterprise

The expert in total workforce security and access.

In a world of accelerating digital transformation and hybrid workforce models, the need for an all-encompassing total workforce security platform is more crucial than ever before.

With a noble mission of making the world a safer place, Alert Enterprise stands as the forerunner in converged security, risk management and total workforce experience and safety. Our Guardian platform addresses your business’s most compelling initiatives, transforming security from a daunting challenge into a seamless, automated and business-enabling process.

Optimize Workforce Experience and Productivity.

With Guardian, workforce experience and productivity are significantly enhanced. We enable your employees to focus on what truly matters - your core business - by safeguarding your processes from insider threats and complex cyber-physical attacks, while delivering automated onboarding, offboarding experiences from recruit-to-retire.

Save Millions, Increase Safety.

The power of Alert Enterprise doesn’t stop there. Our customers are witnessing a financial revolution, saving hundreds of millions of dollars annually. Safety, too, is no longer a trade-off for profitability. Alert Enterprise ensures that your staff and assets are secure, letting you focus on growth.

[Read more](#) about how a Fortune 500 company identified \$70-\$90 million in potential cost savings in North American contractor management alone with Alert Enterprise.

Accelerate Digital Transformation Securely.

Alert Enterprise is not just a security solution; it’s a business enabler. Our platform acts as a catalyst for your company’s digital transformation journey, fortifying it from possible risks and threats. We don’t just secure your business; we make it ready for the future.

Measuring Your Return on Investment with Guardian.

These figures are based on annual projections from an Alert Enterprise customer with 30,000+ employees.

\$90 Million
Annual savings from Contractor over-charging - correlating time sheet submitted with actual time onsite

\$2 M/Year
Labor cost savings by automating 75% of SOC security ticket processing

Drive Business-Changing Efficiency and Collaboration.

With Alert Enterprise, the traditional silos that separate your cyber, IT, HR, physical security and operational technology departments become a thing of the past. We pave the way for business-changing collaboration, visibility, and efficiencies, ensuring a unified approach to your company’s security and operational demands.

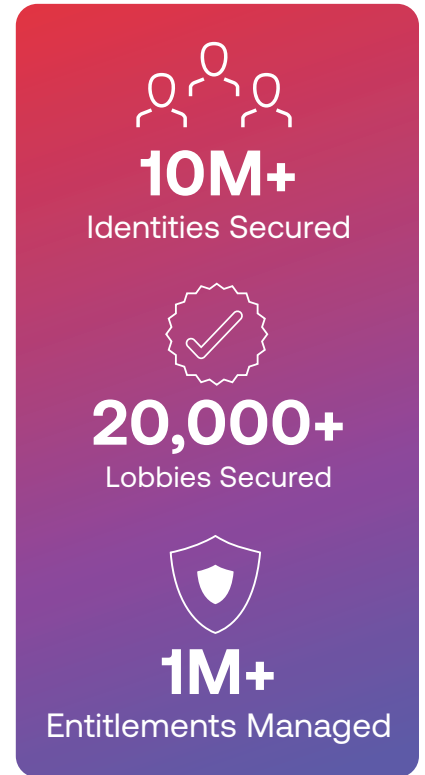

Proven and Trusted by Global Fortune 500 Companies.

Trust is earned, and Alert Enterprise has earned it in abundance. Managing over 10 million identities and 1 million entitlements, with 20,000 lobbies secured, we’ve become the preferred security partner for global Fortune 500 companies across all industries.
